**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I was lucky enough to be able to chose Sonic as my Internet and phone provider, and I never want to go back to Comcast. Sonic ran fiber into my house and I was able to drop Comcast's terrible, oversubscribed, sub-par service. And they didn't even offer fiber in my area.

Comcast has grown into a behemoth that has no incentive to improve its services or even keep pace with the current state of technology. The only reason it exists is because of its size and the fact that most people don't have access to alternative providers.

Reliable, truly competitive broadband is critical to the Internet company I started, and you need to break free from the influence of the big players regulatory capture and start representing the will and needs of the people of this nation.
